DETAILED ACTION

1. The indicated allowability of claims 1, 22 and 24 are withdrawn in view of the newly discovered reference(s) to Morgan. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 15, 17-19, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Morgan.

Morgan discloses a container of liquid 12 suspending from an aircraft 10, a container outlet located at the top of pipe 23, the container being vented by openings 33 at the top, a diffuser to diffuse liquid from the container 12 having an inlet located at the end of pipe 23, a manifold 24, diffuser outlets 27 located horizontally outward and vertically downward from the diffuser inlet, the outlets 27 diffusing liquid in a circular area by the force of gravity (round shaped configuration of the outlets platform), and the outlets 27 are arranged so that each circular diffuser areas are overlapped each other (figure 5).

Allowable Subject Matter

4. Claim 26 and 28 are allowed.

5. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments filed October 17, 2003 have been fully considered but they are not persuasive.

7. Applicant's arguments with respect to claims 1, 15, 17-19, and 27, have been considered but are moot in view of the new ground(s) of rejection.
